### Snail Mail

+5 next round, +5 two rounds from now, and x5 three rounds from now.

### Wishes

Draw 3 cards.

### Busted

+3 when played. +10 when discarded

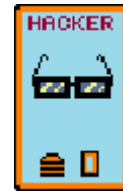

### Swivel

The next card played is put on top of your deck instead of in your graveyard.

### Roundup

Round total score up to the next highest tens place, then hundreds place, then thousandths place, and so on, incrementing each time this card is played.

### Hacker

Play any card from your deck.

### Librarian

Look at the top 7 cards of your deck, reorder them, and choose and play one.

### Pilot

Look at the top 3 cards of your deck, reorder them, and choose and play one. Reorder, play 1.

### Turtle Mode

Delay round score evaluation for 3 rounds.

### Time is Too Expensive

Add 2 times the current round number to this round's score.

### Birds of a Feather

+5. Consecutive runs of 2, then 3, 4, and 5 Birds in your graveyard return to the bottom of your deck. After 5, this stops.

### Necromancy

Exile this Necromancy, shuffle your graveyard and add it to the bottom of your deck.

### Miracle

Auto-plays for +10 if it is the first card drawn in a round or played from the top of your deck; else +3.

### Rags to Riches

Exile n cards from your graveyard cards, then multiply your round total by the number of cards exiled this way.

### Jacks

Discard another card, then put a card from your graveyard into your hand. Nothing happens if you have no other card to discard.

### Fishing Pole

Discard a card, then put a card from your graveyard on top of your deck. Nothing happens if you have no other card to discard.

### Cups

Draw 1, discard a card, then exile a card from your graveyard. Skip any step that cannot be completed.

### Swap

Choose two digits in your total or round score and swap them. The resulting number cannot be smaller

**Catnip**

+1 to this round. Draw 1.

**Journal**

Multiply this round by  $n$ , where  $n$  is cards played this round.

**Triptych**

+3 to this round. Multiply by 3 if the total is divisible by 3.

**Dilla**

+8. The next card's number amounts are doubled.

**Semaphore**

If Semaphore is the first card played of round 1: +100. Last card in hand with an empty deck: add multiplier of  $n$ , where  $n$  is the number of cards in your graveyard. Otherwise +3.

**Bones**

Add 1 to the round for each card in your graveyard, then multiply by  $n+1$  where  $n$  is the number of Bones in your graveyard.

**Threshold**

+3 when played. When discarded, if there are 7 or more cards in your graveyard draw 1 card and multiply your round score by 3.

**Tombstones**

+3 when played. multiply your round score by  $n$  when discarded, where  $n$  is unique card names in your graveyard.

### Roll Over

Play a random card from your graveyard.
